06.05.2026 № 1141/02-43/01 На № _____ від _____

Dear Mr. Consul General Jiří Boreel !

We express our respect and sincere gratitude for your support of Ukraine and for the development of Ukrainian-Czech relations.

We kindly appeal to you with a request to assist in establishing an international municipal partnership for **Kalush City Territorial Community** of Ivano-Frankivsk region by helping identify a sister city among municipalities of the Czech Republic interested in long-term cooperation with a Ukrainian municipality.

Kalush community is one of the most promising areas in Western Ukraine for investment and business development. It includes the city of Kalush, 1 administrative districts, and 16 villages, with a population of around 90,000 people.

Kalush is actively developing as a modern industrial center open to partnerships and new investments. The community has more than 1,000 enterprises, including about 40 relocated from eastern regions of Ukraine. Key industries include chemical production, food processing, woodworking, textiles, energy, and construction materials.

One of its main advantages is over 1,000 hectares of unified industrial land, as well as strategic deposits of potash-magnesium ores. Investors can benefit from industrial parks such as Kalush Industrial HUB, Galicia, and Kalush Production.

The community has strong human resources potential: local colleges and regional universities train specialists for industry and business. Around 250,000 working-age people live within a 35 km radius.

Kalush has a favorable geographic location, a developed transport network, railway connections with Europe, and close proximity to the Polish border. The international H-10 highway passes through the city, while logistics companies and a customs office operate here.

The community actively supports business, simplifies administrative procedures, and develops international cooperation. Kalush has partnership ties with cities in Poland, Germany, the USA, Sweden, Finland, Romania, and other countries.

Kalush is a city of opportunities, confidently moving toward becoming the eco-industrial capital of Western Ukraine.

We are convinced that establishing partnership relations with a municipality of the Czech Republic would become an important step toward implementing joint projects in the following areas:

- local self-government and exchange of experience;
- education and youth exchanges;
- economic development and investment;
- ecology and energy efficiency.

We would be sincerely grateful for your consideration of our request and hope for further fruitful cooperation.

Kind regards,

Mayor of Kalush

Zorana Mikulaj
"Mayor of Kalush"

Andrii NAIDA
