

AN EVENT ENDORSED BY THE EUROPEAN UNION

"The aim of your initiative, namely to reinforce the spirit of solidarity, social ties, and mutual assistance among citizens, while promoting good relationships between neighbours, intercultural dialogue and social cohesion in urban areas, is greatly appreciated by the European Parliament. Our institution is convinced that citizens occupy a key position at the heart of the European project and they are its main players and beneficiaries. Activities that put common European values at their core help to strengthen social ties and to form active and responsible citizens. It is, therefore, with great pleasure that I grant your initiative the European Parliament's high patronage."

Martin SCHULZ

Former President of the European Parliament (2012-2017)

An initiative of

THE FIRST NEIGHBOURS' MEETING FOR A "BETTER LIVING TOGETHER"

Neighbours' Day encourages people to get to know and talk to each other. It creates better conditions for living together and fosters community cohesion and solidarity. By meeting each other once a year at an informal celebratory event, Neighbours' Day improves the way people live together and helps instil community cohesion.

Although the event is supported by city councils and housing associations, the main aim is to get local residents to take on lead roles and organise a neighbours' party themselves. Throughout Europe, the day features various activities enriched by the local culture and creates networks for neighbourly and community practices.
